

Fun Flirts

I have put together a list of fun flirts. The goal is to get a smile from your significant other. Some of these can be corny, but they are classic. Take a moment, read the list, and find one that relates to your situation. Write, text, email, or say one or two to your mate because:

Flirting is a social and sexual behavior involving **verbal or written communication**, as well as body language, by one person to another, either **to suggest interest** in a deeper relationship **with the other person** or if done playfully, for amusement.
